**COMPILED 1992 BY JANET POWELL EPPERSON
(GRANDDAUGHTER OF NER POWELL)**

The Powell name goes back to Wales and was ApHowell. One group dropped the A and H and assumed Powell. The other group assumed Howell. They were originally from the town of Breconshire South Wales which indicates a Scottish settlement. The name of Powell was known as English during the reign of King Henry VIII, A.D. 1509.

THOMAS J. and HENRIETTA POWELL and family took 70 days getting to the U.S. from England as they had to go around a storm at sea. Their 2nd son was William Henry Powell.

William Henry Powell was instructed by his mother in learning & morals & in industry & hard labor & had his lessons in the forests & fields & in helping his father with his canal contract so that even though somewhat handicapped those early days, he was well fitted for life's work. Sometime they moved to Iowa City which was then the state capitol. There was no railroad W. of the Mississippi River, & they helped build the first one on the ice at 37 degrees below 0. The extreme cold discouraged them, & after two years they moved back to Ohio. William Henry was a Republican & an Abolitionist. Their children were:

He loved his family & made oportunities for getting the children, grandchildren, & great-grandchildren together & there was always lots to eat.
